CLEAN AIR is the key factor in creating a safe environment for patients and staff. The hospital and healthcare environments require high quality air management solutions to protect patients and staff against infections and occupational diseases. Our units offer proven air purification solutions against airborne contaminants, chemicals and odors.

**AF2000-R (RECIRCULATION)**

**CERTIFIED HEPA AIR PURIFIER**
For healthcare facilities, waiting rooms, offices and residences

**Product Highlights**
- High volumetric flow rate
- Whisper quiet operation
- Filtration system: prefilter, high capacity and HEPA filter
- Intelligent controls, digital speed control, audible and visual alarms

**Multi-Stage Filtration System**

- **F001 Prefilter**
- **F014 Pleated Filter**
- **F052 HEPA Filter**

- **Air Flow:** Nominal 472 l/s / 1000 CFM
- **Voltage:** 120V (4A) or 230V (2A)
- **Dimensions:** 71”H x 24”W x 26”D / 180cm x 61cm x 66cm
- **Filtration:** 2” Pre-filter MERV10
  12” High capacity pleated filter MERV12
  12” Medical grade HEPA filter 99.97% at 0.3 µm
- **Optional:** Chemical filter (up to 90 lbs / 41 kg)
  6” Certified HEPA filter 99.99% @ 0.3 µm
- **Inlet:** Bottom inlet
- **Discharge:** Adjustable recirculation grille
- **Sound Level:** Whisper quiet, 56 dBA
- **Optional:** silencer to further reduce the sound level
- **Controls:** Digital speed control, audible and visual alarms
  OPTIONAL: Remote ON/OFF and communication
